EXPERIENCE

University professor

University of Havana

Experience in higher education, academic training and guidance in chemistry and scientific research environments.

Researcher in Computational Chemistry

Faculty of Chemistry, University of Havana

Work at the Computational Chemistry Laboratory, with collaborations alongside Dr. Montero, Dr. Yoanna Álvarez Yinarte, Mrc. Zalua Rodríguez and Dr. Fabrice Lecrec from CINAM, France.

Hotel receptionist

Boa Vista, Brazil

Guest support, reservations assistance, information handling and issue resolution in a multilingual environment.

Restaurant customer service

Boa Vista, Brazil

Customer-facing work in a dynamic setting with agility, warm service and team coordination.

Founder of her own business

Cuba

Import management, logistics, administration and operational and accounting follow-up.

EDUCATION

Upper secondary education

Instituto Preuniversitario Vocacional de Ciencias Exactas de Las Tunas

University degree in Nuclear Radiochemistry

Instituto de Ciencias y Tecnologías Aplicadas, InSTEC

Training in general, analytical, inorganic, organic and quantum chemistry, spectroscopy, applied radiochemistry, radiological safety, radioisotope production, radiopharmacology, molecular imaging and medical physics. Research in Quantum Chemistry and undergraduate thesis developed in that field.

Philosophical studies

Instituto Padre Félix Varela

Aristotelian Logic, Politics, History, Ancient Philosophy and World Literature.

Recognitions

Academic and scientific record

Scientific Merit Award for research in nuclear and computational chemistry. Best graduate of her class with the InSTEC 2026 Award for Integral Excellence.
